MEMORANDUM FOR [REDACTED]

25X1A

Subject: Life Insurance

1. In accordance with our conversation, I visited with Stacey K. Beebe concerning the problem which you had raised. Beebe advised that the insurance could be applied for by the individual although more than sixty days had elapsed since he became eligible. However, there will be required a medical examination. For this purpose, there are enclosed two copies of a form which may be completed by the medical examiner. Mr. Beebe indicated that it would be necessary to secure an American doctor, preferably an Army or Navy doctor.

2. In order to preserve security concerning the man's name, only one copy of the form should be forwarded to the field for completion. When the completed form is returned, a certified copy should be made on the other form deleting the name of the individual, and possibly the place at which the medical examination took place. The first six lines on the side of the form entitled "Medical Statement" need not be completed.

3. Also, it will be necessary to secure the usual signed application. The certificate normally forwarded to the War Agencies Protective Association should be transmitted together with a certified copy of the medical examination and a request for approval of the insurance. This insurance cannot be effective until the Association has approved the case. In your letter to the Association, a reminder should be included that the matter was discussed between Mr. Beebe and the undersigned. If you have any further questions, I shall be pleased to answer them.
